# **180 DAYS OF MATH FOR FIRST GRADE (180 DAYS OF PRACTICE) BY JODENE SMITH PDF**

Consistent practice is the best way for students to develop math skills and confidence, at any grade level. 180 Days of Math for First graders provides workbook problems for each day of the school year, giving students ample time to use the skills they learn in class.

Each problem is tied to a specific mathematical concept, allowing students to master skills and prepare for the next level of learning. Students will practice addition, subtraction, multiplication, and division, as well as tackling algebraic thinking, data analysis, logic problems, and more.

With educational activities that are correlated to College and Career Readiness and other state standards, 180 Days of Math helps to prepare students for the future. The daily activities are great as homework or as additional reinforcement of math concepts outside of class.

The 180 Days of Math workbook includes data-driven assessment tips and digital resources for parents and teachers, making diagnostics easy. Encourage your First grade students to approach math with confidence, not fear, with daily practice!

## About Shell Education

Rachelle Cracchiolo started the company with a friend and fellow teacher. Both were eager to share their ideas and passion for education with other classroom leaders. What began as a hobby, selling lesson plans to local stores, became a part-time job after a full day of teaching, and eventually blossomed into Teacher Created Materials. The story continued in 2004 with the launch of Shell Education and the introduction of professional resources and classroom application books designed to support Teacher Created Materials curriculum resources. Today, Teacher Created Materials and Shell Education are two of the most recognized names in educational publishing around the world.

Practice,Assess,Diagnose:180 days of Math for 1st

By Janie Mendez

This book provides 1st students with 180 daily practice activities. Each page builds and assesses student's fluency in math especially since first is the foundation that a child needs for state to strengthen them for future testing.. Each Students gains skills through the practice and allows the teacher to quickly, diagnose students weakness and begin intervention.Kid then graph own learning and look forward to improving on skills. Great visual for both parents and kids.
