Most helpful customer reviews

8 of 8 people found the following review helpful.

Several thorough technique books.

By Amazon Customer

You get a lot of pages your money here, from old sources, very well-versed in these somewhat fading arts. I would give 5 stars, but have some minor criticism of this compilation. First, all the books are essentially identical in their content. Read one and you have pretty much read what all the others have to say. There is some variation in individual bobbin lace patterns, but virtually no difference in the catalogs of stitches. Also the majority of the material is dedicated to bobbin/pillow lace patterns. I would have liked to see filet (lacis) get a little more attention, but I feel pretty picky saying so. Overall a very good deal, especially if you want to explore Torchon in depth.
