POTUS cousins

By Ronbo

This was exactly what I wanted, a bit more than I was expecting. I previewed an older version from the Public Library, so I knew what was coming. The previous, apparently hand drawn to print Presidential relationship charts had been nicely upgraded into regular print flowcharts. Good bibliography citing sources. Anyone who thinks they are related to a president can search the name index for a possible connection. I have found six presidential (distant) cousins so far.

A great resource

By Lynn C. Johnston

A fabulous resource for genealogist and presidential history buffs. Since most of them are descended for British royalty, I love that it also spells out their relationship to each other.
