BIRTH OF THE MULTINATIONAL: 2000 YEARS OF ANCIENT BUSINESS HISTORY - FROM ASHUR TO AUGUSTUS BY DAVID LEWIS, KARL MOORE PDF

This book takes in an impressive expanse of history so far overlooked in the history of the multinational and the world economy--from 2000 B.C. to 1 B.C.

The book starts with the story of the first known multinational enterprise in the times of the Assyrian Empire and traces the history of the rise and fall of the multinational enterprise through the four great empires of the ancient world.

The authors, professors at Oxford University, use the lens of the eclectic paradigm, the leading theory of international business researchers, which renders varied and highly interesting analyses and insights.

Excellent Economic History

By Nathan Albright

Mr. Lewis and his co-author are not only great authors (their book is full of knowledge about an area of history that are often ignored in other economic history books), but Mr. Lewis happens to be a friend of mine (we go to the same church and he has given me great instruction on economic history). I am not a historian (but an amataur history student), and though the material was technical (I would recommend this especially to people either taking courses in economic history or who are interested in the subject)but it is thorough and complete. I am waiting for the next two volumes in the three volume series of economic history books.

Only complete source for ancient business

By Jason Wainscott

This is a wonderful overview of ancient business, and the only comprehensive source I've come across. It is well laid out, and I really enjoy the use of modern figures and examples that relate to the ancient perspective. If you enjoy archeology or business, I highly recommend this book.
