Musical criticism at the highest level

By George Goldberg

Sir Donald Tovey is widely recognized as the leading music critic of the early 20th century writing in English. These essays are all interesting, often provoking, but it is essential that you can read music as there are many notated examples. I have given this collection only 4 stars because these essays are all old (Tovey died in 1940) and many of his conclusions may be superseded by later research; nevertheless, they're all worthwhile if only as a representation of the best musical scholarship of the time.
