A little gem

By Ben

This slim volume is one of the most entertaining and informative basic dermatopathology texts available. It is lavishly (and generally well) illustrated and covers the essential points of most dermatopathological entities in the form of bullet points and a short (typically a small paragraph) discussion. There are numerous

little mnemonics, tips and "pearls" scattered through the text. For anyone who has enjoyed Dirk Elston's lectures, much of the same engaging spirit which enables important messages to be retained is recapitulated in this book. The purchaser is also given access to a series of online lectures, from my limited viewing apparently directed at resident level. My only "criticism" of this book is that Dr Elston's enthusiasm for "creepy crawlies" has resulted in somewhat larger sections on topics such as identification of parasites than one might expect for a book of this size.

While this book will not be the only dermatopathology text a trainee in pathology or dermatology will need, it certainly is a valuable book for preview or overview of subjects. I have already used some of the mnemonics in teaching sessions and even in recalling some differential diagnostic possibilities in signout. For the relatively small cost (both in dollars and time, since with the abundant illustrations a cover to cover reading can be accomplished over a few evenings) I think this is one of the better value educational experiences available.

As succinct and high yield as it gets in dermpath

By Dermopathie

This book has an excellent layout with numerous histologic images and easy to read, fact filled tables for differential diagnoses. It is also written in a very easy to understand fashion with fun mnemonics so that the pathologists or dermatologists in training can quickly master the sometimes befuddling field of dermatopathology. The authors are all well known and respected in their field and did an amazing job by being very succinct yet still very thorough in their presentation. If you have one book with you during dermpath sign-out, I would recommend this text.
