## About the Author

Lucinda was born in Edinburgh and spent her childhood in rural East Lothian, where she spent much of her time roaming the beaches and woods, watching deer, pheasants, geese and rabbits, and listening to the bark of the seals float down the Firth of Forth on the evening breeze. It was then that her lifelong passions for animals - from earwigs to elephants - history, reading and drawing began. She spent years daydreaming about the Roman legions, medieval knights and the American west. Rather than write about the dreams and stories in her head, she drew them purely from her imagination. She is hopeless at drawing anything real in front of her. When she was eleven she was introduced to The Lord of the Rings which combined her own passions for history, legend and fantasy. Still her favourite book, she was thrilled with Peter Jackson's recent Lord of the Rings movie trilogy. After reading history at university she went on to pursue a busy and diverse career in many different companies and organisations, ranging from the Argus Newspaper Group in Cape Town, to the Scottish Post Office, and Edinburgh and Heriot-Watt Universities. After marrying Paul in 1999, Lucinda was able to return to those childhood passions, and very soon their house in Lasswade filled up with ever more rescued animals (dogs, cats, rabbits, guinea pigs and ex-battery hens), books, and pastel and watercolour drawings and illustrations covered in dirty paw marks - the cats do always like to help out! This led to Paul's suggestion that she should try putting pen to paper - or rather, given Lucinda's chaotic writing style, get a laptop and start writing. The result was a rapid explosion of ideas and the start of The Dragonsdome Chronicles. It should be no surprise, then, that the characters at the heart of Dragon Lords Rising and the earlier books in the series - apart from sorcerers, gnomes and dwarfs - are in fact dragons; dragons with their own language and character, from the teasing Chasing the Stars to those with serious attitude like the battledragon Two Gulps & You're Gone. The dragons owe the inspiration for their names to Native American culture, and their characters draw on some of the family pets.

Moonbeam Children's Book Award double silver medalist

A gnome, a girl and a dwarf fly north on an injured battledragon in the depth of winter to search for the missing Commander of the Stealth Dragon Services. Throw in a spy, an overweight dragon fledgling who's so plump he cannot fly, and a renegade Sorcerer Warlock hot on their tail, and it seems like a quest doomed to failure from the outset.

But Quenelda is no ordinary girl, nor her gnome esquire, nor their guide and guardian the veteran dwarf Bonecracker Commando, Tangnost Bearhugger. Quenelda is a lone dragon whisperer in a world at war, where dragons have characters and voices of their own, and the Seven Kingdoms are under threat as never before from the amphibious hobgoblins who have united under a single warlord. The race to find the only man who can unmask the traitor at the heart of the realm is on!

Spread your wings and hang on tightly as mighty Stormcracker takes you on a roller-coaster ride across the Old Wall and into the frozen north where you can slide down the ice flumes to the subterranean world of the Ice Bear Clan, land on an iceberg, or explore the mysteries of the long abandoned sea citadel. If you like magic there is lethal maelstrom magic conjured up from the Abyss, or Quenelda's often hilarious and always hazardous hit and miss efforts as she attempts to master the strongest dragon magic of all: that which flows through her very own veins,

Battles and adventures aplenty are balanced by humour and frothy foolishness at Foresight & Hindsight's Exclusive Emporium as Armelia's marriage to Darcy draws closer. Hidden treason and ancient malice by friendships and bravery found in unlikely places.

So mount up, strap your dragonwings on, and for goodness sake, keep those honey tablets out of reach of Two Gulps Too Many!

Praise for The Dragon Whisperer and Flight to Dragon Isle.

One of the most captivating new books to be published for 8+ for some time . . . It made me laugh, cry and remember exactly what's so special about the time when you or your child live in hope of finding a dragon of your own (Amanda Craig The Sunday Times )

The one letdown of Hare's work, is that, in marketing it towards children, adults might see it as 'just another children's book' and pass it over. The back cover boasts a '9+' age rating and I urge anyone nine or over to snap this read up. Verdict? A battle-dragon of a book! (Liz Wride, Fantasy Book Review)

What Harry Potter did for tales of wizardry, this book does for tales of dragons (Chicklish )

Recommended for Fans Of...: The Lord of the Rings. No, seriously. Also, fans of the Eragon series, the Harry Potter book, Susan Cooper's The Dark is Rising series, Cornelia Funke's Igraine the Brave, Sherwood Smith's Wren to the Rescue series, Patricia Wrede's Dealing With Dragons series, and etc., ad infinitum. will find something here to love. Story to grasp a child's imagination

By Animation

Every so often you want to become immersed in a fantasy story, to enter that world and care about what happens to the characters. You certainly get this in the *Dragonsdome* series. Gritty heroine, small hero-in-the-making - characters with whom a young(ish) child can identify feel empathy with - and of course, evil villains to arouse a child's keen sense of injustice.

A wonderful new look at dragons as large creatures with minds of their own.

I'm not going to spoil the plot - please buy the book and read it - then read it out to any child within hearing distance. Better still, go out and buy the first two books and there's a brand new book 4 just out. Enjoy!

By I. Herald

Lucinda Hare writes a good story that catches you and holds you till the end. The only problem--the story is not yet finished.
