SUPER GRATEFUL for SUPER GREAT PRICE

By roseviolet

Wow! I am more than satisfied with this order! I am GRATEFUL for this low price of \$85.85!!! I gave up on buying this book because my school's store sold it for more than \$200!!! That's too freaking expensive; I already had a crap ton of other textbooks and school materials to buy, and with my budget for the Fall Semester, I just couldn't afford the book at that price. So I started committing myself to borrowing the school library's book for 2 hours at a time. This was very inconvenient because to use course textbooks from the library, you must use it only within the library. So I practically lived in that library just so I could borrow the text book.

But I woke up one day and gave Amazon a shot; I was browsing through Amazon, and that's when I found this textbook for \$85 freaking dollars!! Boy was I happy! I couldn't believe my eyes! I placed that my order in a heartbeat and then did my happy dance :)

At first I was worried that maybe it was cheap because the quality was good or something. BUT NO! The book that I received was exactly the same one that my school's store was selling, and the school's library had in store. The book is colorless and is meant to be put in a binder, but that's how this textbook is supposed to

be. That is its original form--how the company made it. Nothing fishy about it. So if you're complaining about how this is such a "bad quality" because it's a loose-leaf form, you won't find anything better out there. A lot of college textbooks come in loose-leaf form--you're gonna have to deal with it. The pages are not even that thin. And the book comes with the full online access code. You're getting everything you need; so what more do you want? I'm super grateful for this book at this price. It's 2 times cheaper than the school store, I don't know why. Amazon, you're a lifesaver ;)

Missing pages in text

By KSeaman

I opened the text to complete a reasing assignment for chapters 1-3 and the book skips from page 4 to 37, right out of the shrink wrap! I can go online to read it, but I learn better reading from text and am dissapointed that I am not able to use the physical text. The rest of the book is there from what I can gather, just the beginning is missing
