## **PDF**

An updated edition of the Italian adaptation of Essential Grammar in Use. A thoroughly revised edition of the popular grammar book. With five new units, the book now covers all the grammatical points typically taught at Biennio level. It also includes Additional Exercises specifically focussed on problem areas Italian learners are likely to meet and a comprehensive glossary and help on the reference pages enable students to understand new words. The CD-ROM offers additional practice on areas that are particularly useful for Italian learners. This edition, with answers and CD-ROM, is ideal for self-study.

Essential Grammar In Use. Italian Edition.

By alpescott

I have taught English in Italy for about 19 years, and out of all the books I have used this is the most concise and easy to use language book I have ever found. Not only this, I have, in my time, met dozens of English teachers teaching English to Italian speakers who use this book in preference to any other. If one has a problem, eg. when to use `much or many` all that is necessary is to look in the index and turn to the lesson giving all the alternatives and exceptions in the use of these words. This book gives you the building blocks to enable you to converse fluently in the English language. You cannot converse without knowing the grammar first.

I cannot recommend this book more enthusiastically for beginner and advanced students. One can start at the 1st lesson and progress at the speed required.
