Student Loves It
By Flyalien

I use this book in conjunction with the teacher's edition in homeschooling our 12 year old. I am completely happy with this book. This is the first year that my daughter has shown any interest in history (Its also the first year she hasn't been at public school so I can't say the book is 100% responsible, but it definitely contributes) to the point where she's bringing up and discussing what she's learned in relation to our current political situation. We've spent hours and hours discussing US history and how the gov't works, outside of "school time" since we started on this book, the most engaged she's ever been. I would highly recommend for homeschooling. Its helpful to have the teacher's edition at test time and such, but its not mandatory.
