Not Much about Investing Online

By David M. Freedman

Much of this book is about investing in general, not specifically investing online. There is much information about online investment education, financial news, and market data. There is very little here about choosing, navigating, using, or transacting on the various investment platforms. There are no photos, diagrams, or figures that could help readers decide which platforms are easiest or most effective to use.

There is no indication that the author is a successful investor.

A great introduction to investing (Equities)

By Michael Brady

This book is a fantastic introduction to investing. It describes in detail the types of stocks, various brokers and the amount of capital required, the amount of risk involved, etc. A great introduction A - Z !

Investing Online for Dummies

By J. Holloway

Great book for someone who has not invested on line before. Gives lots of good examples and references other books for more advanced advice. Highly recommend.
