Meh

By MizMoore

First of all, like many of you, I loved the original series and have reread them several times. I was interested in this book, and I'm about a third of the way through - not sure I'm going to bother finishing. I've thought a bit about why this book isn't working for me. It's not the dialogue, the plot, the fact that I've read it before - it's just that I can't put myself into this story. Let me explain. I think a big part of the appeal of the Twilight series was a self-professed "ordinary" girl getting the gorgeous, unattainable guy who was totally into her and her alone - and having another gorgeous werewolf also in love with her. Since the readership of Twilight was predominantly female, the average reader was able to project herself onto the more or less blank canvas of Bella and put herself into the story as the ordinary girl who gets the extraordinary guy. Rob Pattinson and Taylor Lautner being cast as the two male leads didn't hurt, either.

Now we have a gorgeous female vampire in love with a totally ordinary guy and....yawn. Who needs more descriptions of gorgeous, perfect women? You can open up any fashion magazine or Hollywood tabloid and read about them. There is no way for the average Twilight reader to put herself into this story - especially since "Beau" is a totally unappealing character and "Edythe" is just making me picture Rob Pattinson in drag.

I don't know why I'm so annoyed by this book - hey, we're not talking about a literary work like "Pride and Prejudice" here, but for the love of all that is holy (as Meyer herself likes to say), could we just have "Midnight Sun" finished before we are all too old to care about this series anymore?

Difficult for a true Twilight fan to swallow

By Lyoness

Ok, I had to go buy it. I haven't gotten very far with it. As someone who has read Twilight probably 100 times (don't judge me), it was very VERY odd to read the exact same words, but with strange new names. Beaufort? Really? She couldn't have come up with a better name that started with a B than Beaufort? I was really thrown off by reading that Charlie bought the truck from Bonnie Black. Then they introduced all of the Cullens with swapped genders. My head started to hurt trying to match everyone up with who they should be, and I put it down. I hope I'll be able to try again. I loved the Twilight books when they came out, so I was interested in this book. Now I'm just not sure I can handle the swap. It would be easier if it wasn't written almost verbatim from Twilight. It feels like she did the quick and easy way out, editing the already-written Twilight just to make a quick buck. Dear Stephenie, I think you would have pleased your fans more by finishing Midnight Sun. This just feels cheap and quick.
