Exactly what I needed at half the price!

By Ashley Janssen

I used this MGMT book for MGT 360 at University of North Carolina Wilmington. It came with the access code for the online ebook and coursework through Aplia's Cengage Learn. It was exactly what I needed and I only paid half of what I would have at the book store. It was a brand new book so there wasn't any writing in it or any torn pages. The concepts were clear and I actually enjoyed reading the chapters. Along with the lessons it included separate examples to explain how the lesson relates to real-world business today.

"with CourseMate, 1 term (6 months) Printed Access Card" ...

By Amazon Customer

"with CourseMate, 1 term (6 months) Printed Access Card". The card is ripped. So, i have no codes at all, which is unbelievable since it is written on the description.

Swindled, I say...

By Kat M

I emailed the seller about not having access to cengage and got no response. I pointed out that the description of product said "NEW", but when I tried to login to cengage it said the access code was already used so I couldn't have access to learning tools. I could have bought this book for pretty much the same price at my college bookstore and had access to this tool. I won't make this mistake again.
