Complete classroom set

By Amazon Customer

I ordered this book to complete the set in our high school classroom. It was so much less expensive than buying a new textbook! We were one copy short of a full class set, and the students had figured out how to wait until all the copies were taken and then say, "I can't do the work 'cuz I don't have a book!" So this solved the problem for us! Condition was as described and delivery was timely.

Not the best book for factual history

By Ineffable jeff

Book seems to go out of its way to support Islam and demonize other faiths. There is also an underlying liberal agenda to the writing. What is their aversion to just writing the TRUTH?
