The Rosicrucians: The History, Mythology and Rituals of an Occult Order

By Steven M. Kleinfelter

I picked this book up randomly, and discovered a very deep rich history an a very obscure Brotherhood that is still prevelant in many forms (including Scientology). McIntosh has done his homework, and he is very thorough in his explanation. However, I would not recommend this book to anyone that isn't familiar with Esotericim in general, particularly around Germany in the 1500's. McIntosh throws quite a few names around and many, and combined with the many, many facets of Rosicrucianism, can be enough to make your head spin.

By Lluke Bruggeman

McIntosh has created a text that is totally accessible for both the serious scholar and the casual researcher. This is an awesome introductory book that also goes rather deeply into both origins and contemporary manifestations of the Rosicrucian movement. Highly recommended.

One star review

By Ashtar Command

This book by somebody named Mac Christie doesn't mention *my* particular Rosicrucian order, which is the only *true* Rosicrucian order, and it doesn't spell the Great Incantation *backwards* in esoterick Latin, and therefore cannot be trusted as a reliable source. Another Luciferic operative from the Sethian Egregore.
