THE SECRETARY: MARTIN BORMANN - THE MAN WHO MANIPULATED HITLER BY JOCHEN VON LANG PDF

When Martin Bormann's name came up again and again at the Nuremberg Trials as the man responsible for some of the most nefarious acts of the Third Reich, most Germans had never heard of him. Yet, 27 typewritten pages of references to documents gave irrefutable proof of his guilt in crimes against humanity. Officially he had been Hitler's private secretary--and almost inseparable companion. Because Bormann himself could not be found, he was condemned to death in absentia, and the search for the missing person made him more famous than he had ever been in his lifetime. During the next quarter century two dozen alleged "Bormanns" were disproved to be and imposter. Finally, in 1972, thanks in large part to the investigative work of the author of this book, Bormann's remains were discovered and identified in Berlin, where he had killed himself shortly after Hitler's death. This book is the story not only of the dramatic discovery of Bormann's remains but of the man himself--the almost incredible story of a not very talented, totally unimaginative, dedicated, ruthless, crafty and tireless bureaucrat who skillfully played on Hitler's weaknesses until he had made himself the most powerful man in Germany next to Hitler himself, the man through whom all the other Nazi elite--Goebbels, Goring, Speer, Ribbontrop, Schirach--had to approach the Fuhrer. It is perhaps the most devastating picture yet of the arbitrariness and disorganization of the Third Reich. Even more important, it is a chilling case history of how a desire for power and a will to succeed can, if all other considerations are put aside, carry a man to the top. It is impossible to conclude after reading it that another Bormann could not rise in almost the same way in another country today.

Exceptionally detailed picture of how the Reich worked

By Evelyn White

One of the more interesting behind-the-scenes analyses of exactly how things worked in Nazi Germany, from Hitler's Weimar rise to the last days in the bunker.

Most people don't realize how much influence this little-known bureaucrat had, especially in the last few years when he had gathered an amazing amount of influence & power, cleverly easing rivals aside and playing the major Nazi leaders off against each other. At the end, he had near-total control over access to der Fuhrer and was arguably the most powerful man in Germany after Hitler. Truly a remarkable achievement for a bureaucratic little weasel that few Germans had ever heard of, and whose name was rarely even mentioned in newspapers.

A fascinating book, thoroughly researched, that also gives a lot of insight into all the Nazi leadership and how they worked with -- but usually against -- each other. I read it once, and immediately began re-reading it.

In reading Konrad Heiden's massive 'Der Fuhrer,' I felt that I had finally gotten a real grasp of Hitler's bizarre animus and understood how much brilliance it took to have finagled his way through the Weimar political minefield and actually steal the leadership. Now, with this biography of Bormann's political life, I believe I understand Bormann's rather amazing talents for plotting and gathering power unto himself while gently -- sometimes -- elbowing all others aside.

Just as Hitler was in many ways the consummate self-taught political genius of his era, Bormann was one of the most effective self-taught bureaucratic manipulators in history, at the end being perhaps the only one Hitler really trusted. The two were made for each other.

This book is, I believe, essential to understanding the Third Reich and how it worked.
