THE VIKING (THE VIKING SERIES BOOK 1) BY MARTI TALBOTT PDF

At not quite fifteen, Stefan's father finally let him board the longship Sja Vinna to take part in his first Viking raid. Yet, the battle was not at all what he expected and he soon found himself alone and stranded in Scotland.

Thirteen-year-old Kannak's problem was just as grave. Her father deserted them and the only way to survive, she decided, was to take a husband over her mother's objections. Suddenly she was helping a hated Viking escape. Could Kannak successfully hide a Viking in the middle of a Scottish Clan? And why was someone plotting to kill the clan's beloved laird?

This book is suitable for ages 14 and above.

Should have read first

By Charlotte Watkins

Not having read anything by this author, I began reading this series without quite knowing what to expect. I had saved them all to read for an upcoming vacation, however, couldn't stand the temptation and began to read.... and read, I did! Once I started, I could not stop - from one book to the other.

This is a refreshingly written series of the Highlander Clans in Scotland. Each book has approximately three sets of characters it focuses on, yet still interweaves others from past groups into the next. It slowly progresses through three generations. I could have kept on reading!

I enjoyed the way this author mixed the characters and the love stories. I enjoyed the fact that romance & love could be found without embarrassing details. I also, liked how each title had a number in the series on it, making it easy to follow from one to the next.

When I first bought the other books, I missed this one in the group, so I didn't read it until last. It should be read first, because it gives the back ground of how this particular clan got started.

Although not a major literary piece, this group of books is thoroughly enjoyable and filled with interesting details of the time period. For this reason, I have given them ALL a five star rating!

spoiler alert

By Amazon Customer

As a "saga" I thought this book was just ok, and easy to read.

As a "romance", this book was a big disappointment. The two g r a d u a l l y and s l o w l y, fall in love as teenagers. The day they admit their love, he is kidnapped and sold into slavery. The next 2+ years is about him being a slave, nothing about her life.

the book description states someone is trying to kill the beloved laird. Unfortunately, the author lets you know from the start who that someone is. And its all talk and "plans", I dont remember an actual attempt being made on his life. There was absolutely no mystery or intrigue.

would I read this one again? No

25 of 26 people found the following review helpful.

One of my favorite authors!

By Amazon Customer

I read this after I had read all the rest of her Highlander series. It just proved to be another great book. I am a big fan of Marti's, and devour any of her Highlander books. I love the fact that they capture my attention, but are clean so I don't have to worry about any smut throwing me a curve ball when I'm least expecting it. As soon as I find out that there's another book in this series, I purchase it and am in book heaven.
