This is a disappointment

By SandyM55

This is all in black and white and there are misspellings and errors. I am not a fan, guess I am critical because I work in education.

Use the Internet instead or buy another book.

By J. Smillie

This book is supposed to be an "unofficial" masterbuilt smoker cookbook. Basically some guy copied and pasted things about smoking, recipes, etc and made a book out of it and is selling it under the famous masterbuilt name. The book might be more successful as a smoking meats book, using all kinds of smoking techniques, woods, and devices.

Some tips if you are just starting out from my experiences with the Masterbuilt Smoker:

1. Read the instruction manual that came with your masterbuilt electric smoker.
2. Join the Masterbuilt Facebook group "my masterbuilt electric smoker".
3. Smokingmeats.com forum and website offers a lot of tips and recipes.
4. Don't buy this book. It's a waste of money because it's not edited for grammar and spelling. The temp and times are off. No pictures of completed recipes or step by step photos. No recipes for swineapple, the fatty or other stuffed meats. While some recipes are unique, they seem incomplete or not tested where they would be in more detail. For instance with the spice cake recipe, he tells you to put it in a baking sheet but doesn't specify what size. Cooking potatoes for 1 hour at 300 (when your masterbuilt smoker doesn't go up to 300) doesn't work. It should be 275 for 1.5-2 hours in your electric smoker.
5. Buy Steven Raichlens book "Project Smoke" instead".

What kind of smoke cook book doesn't tell you what kind of wood the used?

By Robert from Chicago

Whats the point of this book? Smoker Cookbook and there is not one mention of the kind of wood they used. There is cherry, mesquite, hickory etc, all have different flavors.
